It was as if the air—the air of the world without—were not her mother, yet the mother air... was in her. Rita Mae Brown's use of the word "strong" lingers. So too does the early sentence of the chapter. Brown's use of "as if" connects her book with the utopian writing that preceded it. But, writes literary scholar Tere Vail, "Brown's innovation—that tenderness is a kind of strength—suggests a brand-new form of disability politics." The other, newer form of disability politics is Dr. Jill Bolte Taylor's "epiphany" and its aftermath. Taylor, a neurologist, is best known for a 2008 TED talk in which she describes being "literally... strapped down and helpless" while her brain was being examined. The events that she describes made her feel "like an invalid"—until she realized, suddenly and unceremoniously, that the reason her brain was failing was due to its own structure. The parts of her brain necessary for everyday functioning were atrophying. Taylor's talk has been viewed on YouTube more than 17 million times. "What would it be like for you," asked psychologist Steven Pinker, "to witness a brain surgeon remove large chunks of your brain and see that what you thought of as you—your sense of a self—was just the phantom limb of the body parts that were lost?" The video shows Taylor describing that experience. "I was yelling at God," she says. In words that will touch the heart of anyone who has ever lost a loved one or been a caregiver, Taylor remembers that moment: "No more! My God, no more!" When she sees her old brain and all of its memories, she 3da54e8ca3
