Deebash Writting Pad Crack

The Internet offers all sort of applications and programs that you could use in order to write text documents. One of them is Deebash Writting Pad Full Crack. It's a neat text editor and writer that comes with text formatting tools and a really simple interface, which allows you to open and manage various text documents at the same time. Sleek and clean user interface The program sports a really simple and lightweight graphical interface with many neat tools at hand. It even has some customization options, you can change the view type to cascade, tile horizontal, vertical or arrange icons in whichever way you want. It allows you to open multiple text editors at a time, making it easy to multitask and work on more than one document. Create text documents easily You simply need to start typing inside the pad in order to create text documents. It has some text formatting tools, you can adjust font size using a slider or one of the available options. It lets you use bold, italic or underline tools. You can also change text alignment to the left, right or center of the screen. It comes with the option to copy phrases and paste them into another document if you want. You can use undo options but the feature for inserting images doesn't really work. It displays the time and date at the bottom of the window, but you can't insert a time and date stamp inside the document. Some more tools When you're done working on your text file, you can simply save it on your computer with the.dwp extension. It doesn't let you save documents under other extensions. You can preview the document and make some page setup settings before you print it. All in all, Deebash Writting Pad is a useful application for creating text documents, but it could use some more features to make it stand out from the crowd.
