help!Q: Spring Boot Database
Migration with liquibase
/hibernate I am trying to figure
out an issue with liquibase
migration with hibernate. I am

using spring boot and setting the database to be automatically create and destroyed on startup and shutdown:

```
@Configuration
@EnableAutoConfiguration
@Import( { HibernateJpaAutoC
onfiguration.class } )
@PropertySource( value = { "cla
sspath:application.properties" } )
@EnableScheduling
@EnableRedisHttpSession
@EnableAsync @EnableConfig
urationProperties({
ApplicationProperties.class })
public class ApplicationConfig {
@Value("${spring.datasource.ur
l}") private String url; @Value("
${spring.datasource.username}")
) private 3e33713323
```
